

# THE SAFETY GROUP ADVANTAGE

Texas Mutual gives your clients and your agency a big advantage with safety groups. Your clients will receive financial benefits while you grow your agency. In addition to earning full commission, agents retain ownership of the account and work directly with Texas Mutual.

## PREMIUM DISCOUNT

Thanks to group purchasing power, safety group members receive a discount of about 12% on their premium.

## TWO DIVIDENDS

In addition to an individual dividend, safety group members can earn a second dividend based on the group's performance.

## BETTER RETENTION

Our safety groups are one of the best ways you can keep your clients happy and boost your retention.

As the leading writer of safety groups in the state, Texas Mutual works with 26 safety groups in more than 10 different industries. Explore the groups below or visit [texasmutual.com/safetygroups](https://texasmutual.com/safetygroups).
