

FREE E-LEARNING FOR TEXAS MUTUAL POLICYHOLDERS

Make safety a priority with engaging online training courses.

Assign courses

With hundreds of courses to choose from in English and Spanish, select the training that's right for your business, assign to individuals or groups of employees and set realistic deadlines.

Employees can take courses on any device, at their own pace and receive a certificate upon completion.

Build programs

Customize learning for your employees by combining multiple e-Learning courses to build programs specific to your organization and job tasks. You can choose content from our vendor's subject matter experts or upload your own.

Maintain training records

With e-Learning, you can assign and track training all in one convenient place. The robust reporting tool allows you to monitor usage, view your employee's scores and download custom reports.

e-Learning activities are retained in the system to assist you in maintaining training records.

READY TO START USING E-LEARNING IN YOUR WORKPLACE?

Log in to texasmutual.com and select the Safety tab to get started.

For further assistance, call Texas Mutual's safety services support center at 844-WORKSAFE (967-5723).
